

WESTERLY

In the enforcement of automobile laws the charge of discrimination is common street talk, the individual alleged to have been favored being Attorney Benjamin H. Hewitt, prosecutor of the town court of Stonington. Chief Brown denies the allegation and states that arrests for violation of the law are made regardless of the social or business standing of the offenders, as they all look alike to the police.

It was reported that the motorcycle cop trailed and overtook Mr. Hewitt, whose automobile was exceeding the speed limit on the Watch Hill road, and that when he found the offender was an officer of the Stonington court, the cop passed on, making no arrest. This matter was investigated and it has been ascertained that the person on the motorcycle was a letter carrier, and not the traffic cop.

It was reported at a meeting of the Providence Building Trades council that "A committee of business agents appointed to visit New London reported that many Providence craftsmen were working there at \$1 an hour in connection with the building of 266 new homes in one section and 116 in another, through government co-operation with New London. The business agents were enthusiastic over the type of homes being built, durable cottages with 30-foot lawns in front, and layouts of the shrubbery Groton is also to benefit by a similar project." This rosy condition is denied by the Western craftsmen employed in New London. One of them said "Divide the statement by four."

Deputy Sheriff George Phillips, jailer at Kingston, was given a warrant for the arrest of John J. Phillips, of South Kingston, charged with non-support of his wife and child. Phillips was located at work in a Stafford Springs mill, and on Saturday morning at 2 o'clock the sheriff made a start from Wakefield in his automobile for the Connecticut town, eighty-five miles away. He secured his man and was back in Westerly nine hours later. A stop for dinner was made here and then Phillips was taken to his old home town, where he will be held into court to answer to the charge preferred against him. Secretary John G. Clark, of the Washington County Agricultural society, announces a free day for children at the Kingston fair. He has co-operated with the extension service

department of the Rhode Island State college, and devised a plan whereby the boys and girls may gain free admission to the fair on the opening day, September 9. The offer is limited to boys and girls club members and requires that they exhibit some of their pigs, cows, poultry, corn or potatoes. State Club Leader E. R. Thomas has notified Secretary Clark that the young agriculturists who have been working under his instructions during the war period, welcome the opportunity to show the people what they have been contributing to the state's food supplies. Many new features have been planned for coming South County Old Home Week.

Albert Thompson Hall, for 20 years proprietor of a ladies' tailoring establishment in Westerly, died Saturday afternoon after a two weeks' illness at the home of Mrs. Andrew Smith on Lester street. He was the son of the late Capt. Elisha and Mary Hall and was born in Westerly April 13, 1888. He is survived by three brothers, Daniel, Elisha and Ernest Hall, and a sister, Mrs. Isaac Haney.

The touring car owned by Mrs. Thomas Clark of Quonsetcong and operated by William Shea overturned on the Post road near the Saunders residence while carrying Miss Marie Shaw of Providence, Mrs. Fogarty and her son, Misses Lena and Lillian Imhoff of Attleboro, to the Church of the Immaculate Conception in Westerly. All were caught under the machine except Shea. Mrs. Michael H. Scanlon of Westerly, Dr. Franklin D. Lawson of New York and Dr. Joseph Bennett of Providence hurried to the location of the mishap and rendered aid to the injured.

Miss Shaw sustained a fracture of the left collarbone, injuries to her back and internal injuries. She was taken to Providence in Meyer's private ambulance that happened along from New London, bound to Providence. She received slight cuts on the hands. Mrs. Fogarty was injured in the throat and her body was bruised. Her boy was not hurt. Left over her nose, her right leg and arm were cut and bruised and there are minor cuts in her forehead. Lillian Imhoff sustained a laceration of the forehead and several bruises. These were taken to the Saunders residence and treated by the physicians.

The male spinners of Westerly and Pawcatuck united with like workers in the state in an outing at Crescent Park near Providence Saturday.

John D. Hinton, secretary of the state board of agriculture, says that no trace of the Buncheon corn borer has been found in Rhode Island.

Governor Geesman declares that when the legislature meets in January he expects that the woman suffrage amendment will be approved during the first week.

Providence tailors have made a demand for a 44-hour week at a minimum wage of \$28 a week. Western journeymen are not unionists. If there be truth in the old saying: "It takes nine tailors to make a man," the demand is not justified.

The police department has no special fund to enforce traffic laws, and the expense of detecting automobile law violators comes from the regular police appropriation.

Card playing in the open for cash in the Pierce street section is calling for police intervention which is sure to come.

The local history, a sort of souvenir of the two hundred and fiftieth anniversary of Westerly, will probably be published in September.

The taxicab men will welcome the resumption of trolley traffic as much of their business depends upon transfers. This class of patronage has materially decreased since the trolley cars ceased to operate.

"If left to us, instead of the national officers, believe me this trolley strike would soon come to an end," said one of the strikers in Westerly Saturday.

The Westerly Cycle club members had their annual meeting at Brightman's pond Sunday.

A petition to permit Sunday baseball is expected at the next meeting of the Westerly town council.

The board of water commissioners is composed of three highly respected citizens, and perhaps one of the

most competent superintendents and engineers in the state.

Sewerage construction work is progressing, but it is estimated that the entire system will not be completed within five years.

The Westerly town council and the Westerly Board of Trade are standing pat on the important trolley situation. This is a question in which all the people in the town ought to be interested, as the future of trolley service in this section is involved.

All the trades in Westerly are not unionized and there is said to be a plan in the works to make it unambiguous. That plan will not work all trades in Westerly just at present.

Miss Lois Willoughby of New York, formerly engaged in newspaper work in Westerly, and Edwin B. Stillman of Westerly were married Saturday in New York city.

STONINGTON

The motorcycle squad of the state police has a detail in this section intent upon putting a stop to reckless driving of automobiles on the state highway, already a trio of offenders have been prosecuted and more are sure to follow. As there is no speed limit in the state law it is the ruling that driving an automobile faster than thirty miles an hour, where there is other vehicle traffic, is classed as reckless driving. The state police thus far have arrested only three who have been going at the rate of forty to fifty-five miles an hour. Now that it is known the police are on the job, these driving at a speed faster than thirty miles are liable to be prosecuted in the Stonington town court.

SLIGHT INCREASE IN STORRS EGG YIELD

In the thirty-eighth week of the contest at Storrs, the total production was 2174 eggs, a slight increase over last week's production by 17 eggs.

The White Leghorns won all honors for the week. Pen 64, entered by P. G. Platt, Wallingford, Pa., took first place with a production of 51 eggs.

Pen 3, owned by Kirkup Bros., Marlborough, N. J., and pen 33 entered by Francis T. Lincoln tied for second place with a yield of 36 eggs, owned by Meadowdale Farm, Cedarhurst, L. I.

Pen 82, Papp's Leghorn Farm, Atlantic Highlands, N. J., won fifth place.

Associated with the damp, wet weather which has prevailed over this and nearby states since St. Swithins' Day are man and chicken pox.

It will be well for all poultry managers to keep a sharp lookout during the next week to see that it doesn't get a start in the flock. The station at Storrs, Conn., has had very good success in combating this disease by adding powdered sulphur to the mash.

Five pounds sulphur by weight to 100 of mash, feeding it in the mash until it is reasonably safe that the disease has been exterminated.

It is reasonably safe that the disease has been exterminated. When sere break out in the flock, a coating of iodine, iodine form or just ordinary vaseline will help materially in preventing it from spreading.

PLEASURE BEACH BOMB TESTS RILE UP FISHERMEN

Fishermen and lobstermen of the waters of Niantic and Waterford, the Pleasure Beach neighborhood, are red up over the announcement that the government was to conduct depth bomb tests with a submarine off the coast of the state.

One lobsterman of that locality claims that there are about 2,000 lobster pots set in the neighborhood where the tests are expected to be made. Besides there are a dozen or more large fish pounds. He expressed the belief that the explosion of depth bombs under water would kill all the fish in a wide area and practically ruin the season for those who are engaged in securing sea food.
